

Workout Injury Risk Report

2026-09-28 23:16

Health Summary

BMI 19.8 (Normal) - Goal: Bulk

Great job finishing today's workout! Your BMI of 19.8 puts you in a healthy range, giving you a fantastic, lean baseline to build muscle mass. To hit your bulking goals on a vegetarian diet, focus on staying in a slight caloric surplus while leveraging protein-dense foods like eggs, dairy, tofu, and legumes to fuel your muscle recovery. Keep up this momentum and stay consistent with your nutrition to see steady strength gains.

Workout Summary

Duration: 00:54

Exercises Completed

- Lateral Raises: 9 reps

Mishaps & Injury Risk

No risky form issues were detected during this workout. Great job!
